I. What is BEAM?

The Business Education Association of Mongolia (BEAM) is a student-led organization that gives Mongolian high school students access to business education, competitions, leadership experience, and real-world exposure.

BEAM was created to solve an issue: many students are capable and motivated, but lack structured educational opportunities to explore business, economics, and entrepreneurship beyond their own school. BEAM brings students together across schools, challenges them at a national level, and prepares them for global standards.

A. History and Founding

The Business Education Association of Mongolia (BEAM) was founded to address the lack of structured, united, and accessible business and entrepreneurship extracurricular opportunities for Mongolian high school students. BEAM was established as a student-led initiative with the goal of connecting students across schools and preparing them for national and global academic and professional standards.

II. BEAM Purpose

A. BEAM's Four Core Pillars

1. Entrepreneurship

We equip students with the knowledge, tools, and mentorship required to launch and manage real businesses. Through workshops, case studies, and venture development programs, BEAM prepares participants to think and act like entrepreneurs.

2. Collaboration

BEAM connects students across schools and communities, enabling them to form diverse teams, exchange ideas, and learn from one another. This network fosters teamwork and shared ambition that transcends individual campuses.

3. Opportunity

We provide students with access to platforms to pitch, test, and develop their own business ideas. Through BEAM-led initiatives and external competition opportunities, students gain real-world exposure and the chance to turn vision into reality.

4. Impact

BEAM encourages participants to think beyond profit-driven outcomes and consider the broader purpose and responsibility behind business decisions. Students are empowered to create ventures that address community needs and contribute to Mongolia's long-term economic and social development.

B. Mission & Vision (BEAM)

B.1 Mission

Through mentorship, structured learning, and collaborative experiences, BEAM empowers students to build strong foundations in business thinking and apply their knowledge in real-world and competitive contexts.

B.2 Vision

We envision a Mongolia where students have the confidence, skills, preparation, and opportunity to contribute to meaningful work that strengthens the nation's communities and long-term economic development.

III. BEAM Governance and Operations

A. BEAM National Council Responsibilities

The BEAM National Council is responsible for:

- A.1 Communicating competition timelines, updates, and expectations
- A.2 Supporting chapter presidents with guidance and resources
- A.3 Coordinating national-level BEAM events and initiatives
- A.4 Ensuring consistent standards, conduct, and fairness across all chapters

The National Council does not run individual school chapters. Its role is to support, and coordinate them.

B. BEAM Chapter Responsibilities

Each BEAM chapter operates independently within its school, following BEAM's shared standards and code of conduct.

What BEAM Chapters are responsible for:

- B.1 Recruiting, onboarding, and actively engaging student members (recruitment processes for members are determined by the chapter president)
- B.2 Managing chapter operations and internal leadership roles
- B.3 Organizing meetings, training sessions, and chapter-led internal activities
- B.4 Designing and running their own initiatives, workshops, or projects based on student interests
- B.5 Preparing students for competitions using the provided materials
- B.6 Promoting BEAM opportunities within the school
- B.7 Communicating regularly with the BEAM National Council, including through the Monthly Report described in Section VII

Chapters have the freedom to run their own ideas, as long as activities align with BEAM's mission and standards.

C. BEAM Chapter Leadership Structure

C.1 The leadership roles listed below represent the ideal chapter structure; however, individual BEAM chapters may adjust, add, or combine leadership positions based on their size, capacity, and internal needs, provided that all roles and responsibilities remain aligned with BEAM's mission and standards.

- President (Chapter Director) – Acts as the Director of the school's BEAM chapter. Responsible for overseeing the school chapter in its entirety, and representing the school within BEAM Mongolia.
- Vice President – Works directly under the President, with the explicit responsibility of preparing to assume leadership in subsequent years, ensuring continuity and sustainability.
- Operations Lead – Maintains internal records, communication, and organizational documents for the school chapter.
- Finance Director – Manages the financial aspects of intra-school events, budgets for student ventures, and fundraising efforts.

D. Leadership Selection Process

- D.1 Chapter Presidents are the first to be selected through an application-based process that is evaluated by the BEAM National Council.
- D.2 Once appointed, the Chapter President is responsible for determining the chapter leadership structure: the selection process, officer roles, and internal organization of the chapter.
- D.3 The Chapter President may design leadership roles and responsibilities in a way that best fits the needs and size of their school's BEAM chapter, while aligning with BEAM's mission and standards.

E. Leadership Position Title Usage Policy

To maintain clarity and consistency across BEAM: no leader may use the title "BEAM President" on their own.

Formal Usage (Written & Official)

B.1 For all documents, applications, certificates, emails, reports, and official materials, the following format must be used:

- BEAM [School Name] Chapter [Role]
 - Examples: BEAM American School of Ulaanbaatar Chapter President
 - BEAM [School Name] Chapter Finance Director

Informal / Spoken Usage Only

B.2 In verbal communication or informal speaking contexts only, the shortened format may be used:

- BEAM [School Name] [Role]
 - Examples: BEAM ASU President
 - BEAM [School Name] Operations Lead

V. Communication and Public Relations

A. Official Communication

All official BEAM communications must follow established title usage, branding, and messaging guidelines. Communications representing BEAM should be accurate, respectful, and aligned with the organization's mission and standards.

B. Social Media Policy

- A.1 Members representing BEAM online are expected to comply with school rules and BEAM guidelines.
- A.2 BEAM members are expected to actively promote major BEAM events.
- A.3 Chapters are encouraged to post consistent and engaging content to promote their own activities, initiatives, and events.
- A.4 All promotional content must align with BEAM's mission, Code of Conduct, and branding standards.

VI. Awards and Recognition

BEAM recognizes members and chapters for leadership, participation, and meaningful contributions throughout the academic year. One such award is the Chapter of the Month.

- At the end of every month, BEAM will recognize and award one Chapter of the Month, drawing in part on the chapter's Monthly Report (see Section VII).
- Specific award categories and criteria will be determined later in the year, based on participation, performance, and the overall development of BEAM during its inaugural term.

VII. Monthly Report

A. Purpose

Each BEAM chapter must submit a Monthly Report to the BEAM National Council. The Monthly Report exists to ensure transparency, accountability, and continuity across chapters, and it gives the National Council the information it needs to support chapters, track chapter health, and evaluate chapters for Chapter of the Month and other recognitions.

B. Submission Requirements

- B.1 The Chapter President is responsible for the Monthly Report, and may delegate compilation to the Operations Lead or another officer, but remains accountable for its accuracy and timely submission.
- B.2 Reports must be submitted to the BEAM National Council by the **5th of the following month** (e.g., the report covering October activity is due November 5).
- B.3 Reports must be submitted using the official BEAM Monthly Report Template referenced in Section VII.E, in the format specified by the National Council.
- B.4 Late, incomplete, or vague reports may affect a chapter's standing in BEAM's chapter reporting and points structure and its eligibility for Chapter of the Month.

C. Required Contents

Every Monthly Report must cover the full month and include, at minimum, the four components below. Entries must be specific and quantifiable. A general statement such as “we held a workshop this month” is not sufficient on its own and must be resubmitted with the detail described below.

C.1 Progress Updates

Chapters must give a complete account of everything the chapter did during the month, including but not limited to workshops, training sessions, internal meetings, competition preparation, and outreach or promotional efforts. For every activity, the report must state:

- What was taught or done (the specific topic, skill, or task; not just the activity's general category)
- Format (workshop, case study, guest talk, internal meeting, competition prep session, etc.)
- Number of sessions held that month
- Frequency (e.g., once per week, twice per month)
- Duration of each session (in minutes or hours)
- Number of students or members who attended each session
- Facilitator(s) or lead(s) for the activity
- Outcomes or deliverables produced (e.g., number of business plans drafted, pitches completed, members onboarded)

Example of an acceptable entry: “Taught financial literacy to younger students. 1 session per week, 60 minutes per session, an average of 22 students attended, facilitated by [Name].

Chapters should use the Activity Log format below (or the equivalent field in the official template) to report every activity for the month:

Activity / Topic	Format	# Sessions This Month	Frequency	Duration / Session	# Students Attended	Facilitator(s)
Financial Literacy Class	Workshop	3	1x / week	60 min	22 (avg.)	[Name]
Fundraiser	Campaign	2	3x / week	45 min	18	[Name]

C.2 Financial Budgeting & Data

Chapters must report complete financial activity for the month, including:

- Opening balance carried over from the previous month
- All income received, with source, amount, and purpose (e.g., membership dues, sponsorship, fundraising event)
- All expenses incurred, with item, amount, and purpose (e.g., venue booking, printing, competition registration fees)
- Closing balance
- Budget vs. actual spending for any planned initiatives
- Any outstanding financial obligations or costs anticipated for the following month

Chapters should use the Financial Log format below (or the equivalent field in the official template):

Item	Source / Purpose	Amount (₹)	Notes
Opening Balance			Carried over from prior month
Income (list each source)			
Income (list each source)			
Expenses (list each item)			
Expenses (list each item)			
Closing Balance			
Outstanding Obligations			Costs expected next month

C.3 Challenges & Risks

Chapters must identify specific obstacles encountered during the month, for example, low attendance, scheduling conflicts, resource shortages, member turnover, or school-level restrictions and report, for each:

- The nature and cause of the challenge
- Level of impact on chapter operations
- Steps already taken to address it
- Support requested from the National Council, if any

C.4 Next Steps & Priorities

Chapters must outline planned activities and goals for the upcoming month, including:

- Upcoming events, workshops, or competitions and their planned dates
- Membership or recruitment goals
- Any support, resources, or materials needed from the National Council
- Progress checkpoints toward longer-term chapter goals
- Fixing any challenges and risks

D. Additional Reporting Notes

- D.1 Monthly Reports feed directly into each chapter's standing within BEAM's chapter reporting and points structure and inform Chapter of the Month evaluations.
- D.2 Chapters should retain their own copies of all Monthly Reports for institutional continuity, particularly across leadership transitions.

E. Official Template

The official BEAM Monthly Report Template, distributed and maintained by the National Council, must be used for all submissions. Chapters should not substitute their own format unless the National Council has approved an exception.

VIII. Code of Conduct

A. Must for all BEAM members

All BEAM members must:

- A.1 Follow Mongolian law and school rules
- A.2 Represent BEAM respectfully online and offline
- A.3 Use provided materials ethically and responsibly

B. Strictly Prohibited

- B.1 Selling preparation materials
- B.2 Paid teaching using BEAM content
- B.3 Posting materials publicly
- B.4 Misrepresenting BEAM authority
- B.5 Using BEAM for personal profit

C. Violations and Removal

Violations may result in removal or a permanent ban from:

- C.1 BEAM Competitions
- C.2 Leadership roles
- C.3 Any BEAM-related opportunity/event

IX. Handbook Administration

A. Amendments and Revisions

This handbook may be amended as BEAM evolves, with updates communicated to chapters.

B. Acknowledgment

All chapter presidents and members are expected to review and adhere to this handbook.
